

IN THE CLAIMS

1-8. Canceled.

9. (Currently Amended) A ~~composite comprising a non-~~
woven material having reversible enhanced thermal properties.

10. (Currently Amended) ~~The~~A composite including the
non-woven material according to claim 9, further comprising a
foam material.

11. (Previously Added) The composite according to claim
10, wherein the foam material is an open cell foam.

12. (Currently Amended) ~~The~~A composite including the
non-woven material according to claim 9, further comprising an
inner moisture transfer material.

13. (Previously Added) The composite according to claim
12, further comprising a foam material.

14. (Previously Added) The composite according to claim
13, wherein the foam material is an open cell foam.

15. (Previously Added) The composite according to claim 14, wherein the foam material has reversible enhanced thermal properties.

16. (New) A non-woven material comprising randomly laid fibers and having reversible enhanced thermal properties.

17. (New) The non-woven material according to claim 16, wherein the fibers are hollow.

18. (New) The non-woven material according to claim 16, wherein the fibers are laid in random layers with a binder.

19. (New) The non-woven material according to claim 18, wherein the layers of fibers are attached to one another by being needle punched therethrough.

20. (New) A material comprising fibers laid in random layers with a binder and having reversible enhanced thermal properties.

21. (New) The material according to claims 20, wherein the layers are attached to one another by being needle punched therethrough.
